4.1 Physical Facilities				
1	4.1.1	QlM	The institution has adequate infrastructure facilities *a.* teaching - learning. viz., classrooms, laboratories, *b.* ICT enabled facilities such as smart classes, LMS Facilities for cultural and sports activities, yoga centre, games (indoor and outdoor) gymnasium, auditorium etc	1
2	4.1.2	QnM	Percentage of expenditure excluding salary, for infrastructure development and augmentation	3
4.2 Library as a Learning a Resources				
3	4.2.1	QlM	Library is automated with digital facilities using Integrated Library Management System, adequate subscription to e-resources and journals are made. The library is optimally used by the faculty and students	5
4	4.2.2	QnM	Percentage expenditure for purchase of books/ e-books and subscription to journals/e-journals	7
4.3 IT Infrastructure				
5	4.3.1	QlM	Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection	9
6	4.3.2	QnM	Student - Computer ratio	11
7	4.3.3	QnM	Institution has the following Facilities for e-content development and other resource development	14
4.4 Maintenance of Campus Infrastructure				
8	4.4.1	QnM	Percentage expenditure incurred on maintenance of physical facilities and academic support facilities excluding salary component	21
9	4.4.2	QlM	There are established s y s t e m s a n d procedures for maintaining and utilising physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.	23

4.1.1 The institution has adequate infrastructure facilities
a. teaching - learning. viz., classrooms, laboratories,
b. ICT enabled facilities such as smart classes, LMS

Facilities for cultural and sports activities, yoga centre, games (indoor and outdoor) gymnasium, auditorium etc

Infrastructure and Facilities at Chinmaya University

Chinmaya University is committed to providing world-class infrastructure to ensure holistic development and an enriching academic experience for its students. The university has developed state-of-the-art facilities to support teaching, learning, research, and extracurricular activities. From well-equipped classrooms and laboratories to advanced ICT-enabled learning spaces and recreational centers, the institution offers an environment that fosters growth and innovation.

Modern Teaching and Learning Facilities

The university boasts a robust infrastructure that facilitates effective teaching and learning. It has spacious and well-ventilated **classrooms** designed to accommodate modern pedagogical techniques. Many of these classrooms are equipped with **projectors, whiteboards, and ergonomic seating** to enhance the teaching-learning experience. The university emphasizes **experiential learning**, and to support this, it has **fully functional laboratories** for science, technology, and research-based courses. These laboratories are stocked with advanced equipment, allowing students to gain hands-on experience in their respective fields.

ICT-Enabled Learning: Smart Classrooms and LMS

In the digital era, technology-driven education plays a crucial role in academic excellence. Chinmaya University has embraced **ICT-enabled learning** by incorporating **smart classrooms, a Learning Management System (LMS), and digital libraries**. Smart classrooms are equipped with **interactive screens, audio-visual aids, and high-speed internet connectivity**, enabling faculty members to deliver engaging and immersive lessons.

The **Learning Management System (LMS)** is a significant asset, providing students with **access to e-books, recorded lectures, assignment submissions, and real-time faculty interactions**. This system ensures **seamless communication between students and educators**, promoting a collaborative learning environment. Additionally, the **digital library**

grants students access to a vast collection of e-resources, journals, and research papers, supporting academic growth and research excellence.

Facilities for Cultural and Sports Activities

Understanding the importance of extracurricular engagement, Chinmaya University has developed **dedicated spaces for cultural and sports activities**. The university organizes various **cultural festivals, music, and dance performances**, providing students with opportunities to showcase their talents. There is a **fully equipped auditorium** that hosts **seminars, conferences, and cultural events**, fostering creativity and intellectual discourse.

Sports facilities are equally emphasized to promote **physical fitness and teamwork**. The university features **both indoor and outdoor sports arenas**, including **basketball courts, football fields, cricket grounds, badminton courts, and a running track**. Indoor games such as **table tennis, chess, and carrom** provide recreation for students who prefer indoor activities.

Yoga Centre and Gymnasium for Holistic Well-being

Chinmaya University strongly believes in the **physical, mental, and spiritual well-being** of its students. The **Yoga Centre** offers a serene space for students and faculty to practice **meditation, mindfulness, and traditional yoga techniques**. Regular yoga sessions are conducted to help students manage stress and enhance their overall well-being.

For those who prefer a more active approach to fitness, the university houses a **modern gymnasium equipped with advanced workout machines**. The gym provides **strength training, cardiovascular exercise options, and professional guidance**, ensuring students maintain a healthy lifestyle alongside their academic pursuits.

4.1.2 Percentage of expenditure excluding salary, for infrastructure development and augmentation

Report on Percentage of Expenditure Excluding Salary for Infrastructure Development and Augmentation at Chinmaya University

Introduction

Chinmaya University is committed to continuous infrastructure development and augmentation to support its academic and research goals. The institution allocates a significant portion of its budget to enhance physical infrastructure, technological advancements, and student facilities. The following report provides an overview of the percentage of expenditure (excluding salary) for infrastructure development year-wise over the last five years.

Year-wise Percentage of Expenditure

The expenditure percentage dedicated to infrastructure development for the past five years is represented in the table and bar chart below.

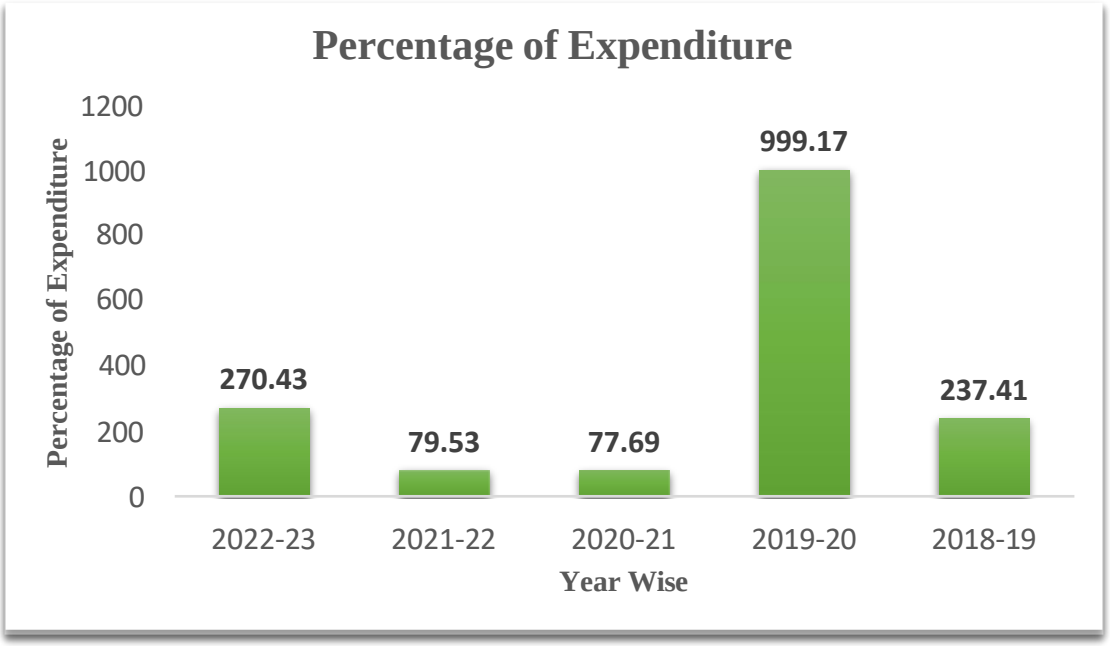

Year Wise	2022-23	2021-22	2020-21	2019-20	2018-19
Percentage of Expenditure	**270.43**	**79.53**	**77.69**	**999.17**	**237.41**

The graphical representation highlights the fluctuations in infrastructure investment over the years, with a peak expenditure of **999.17% in 2019-20**, indicating a major investment in infrastructure projects during that period.

Analysis of Expenditure Trends

1. **Significant Investment in 2019-20**

   The highest percentage of expenditure was recorded in **2019-20 (999.17%).** This suggests that substantial investments were made for major infrastructure development projects such as new academic buildings, research facilities, and technological enhancements.

2. **Steady Investment in Other Years**
3. In **2022-23**, the expenditure stood at **270.43%**, reflecting a strong focus on upgrading existing facilities and introducing new initiatives.
4. The years **2018-19 and 2021-22** saw relatively lower but stable investments, **237.41% and 79.53%** respectively.
5. The **2020-21** expenditure was **77.69%**, indicating a cautious approach, possibly due to pandemic-related restrictions.

4.2.1 Library is automated with digital facilities using Integrated Library Management System, adequate subscription to e-resources and journals are made. The library is optimally used by the faculty and students

Introduction

Chinmaya University has established a state-of-the-art library, fully equipped with modern digital facilities and an Integrated Library Management System (ILMS) to support the academic and research needs of its students and faculty. The university's commitment to providing a well-organized and resourceful learning environment is evident through its investment in advanced library infrastructure, subscriptions to leading e-resources, and a structured management system. The automated library ensures seamless access to a wide range of academic materials, enabling students and faculty to enhance their knowledge base and engage in meaningful research activities.

Integrated Library Management System (ILMS)

The library at Chinmaya University operates using an Integrated Library Management System (ILMS), which streamlines the process of cataloging, acquisition, circulation, and overall management of library resources. The ILMS facilitates efficient organization and retrieval of information, reducing the time spent on manual processes. Through this system, students and faculty can easily search for books, journals, research papers, and other resources through an online platform. The system also allows users to reserve books, renew borrowings, and check the availability of resources in real-time, ensuring smooth and uninterrupted access to knowledge. The automated nature of the ILMS helps in reducing human errors, improving the accuracy of records, and enhancing the overall user experience.

Access to E-Resources and Journals

Chinmaya University's library is well-equipped with a wide range of e-resources, including academic journals, research databases, e-books, and open-access materials. The university maintains subscriptions to leading national and international journals, ensuring that students and faculty have access to the latest research findings and academic publications. E-resources are accessible through the university's online portal, which allows users to access content from remote locations. The availability of e-resources enhances the research capabilities of the university community, enabling them to stay updated with advancements in their respective

fields. Additionally, the library provides access to databases such as JSTOR, Springer, IEEE Xplore, and other reputed platforms, ensuring that students and researchers can access high-quality information.

Optimal Utilization of Library Resources

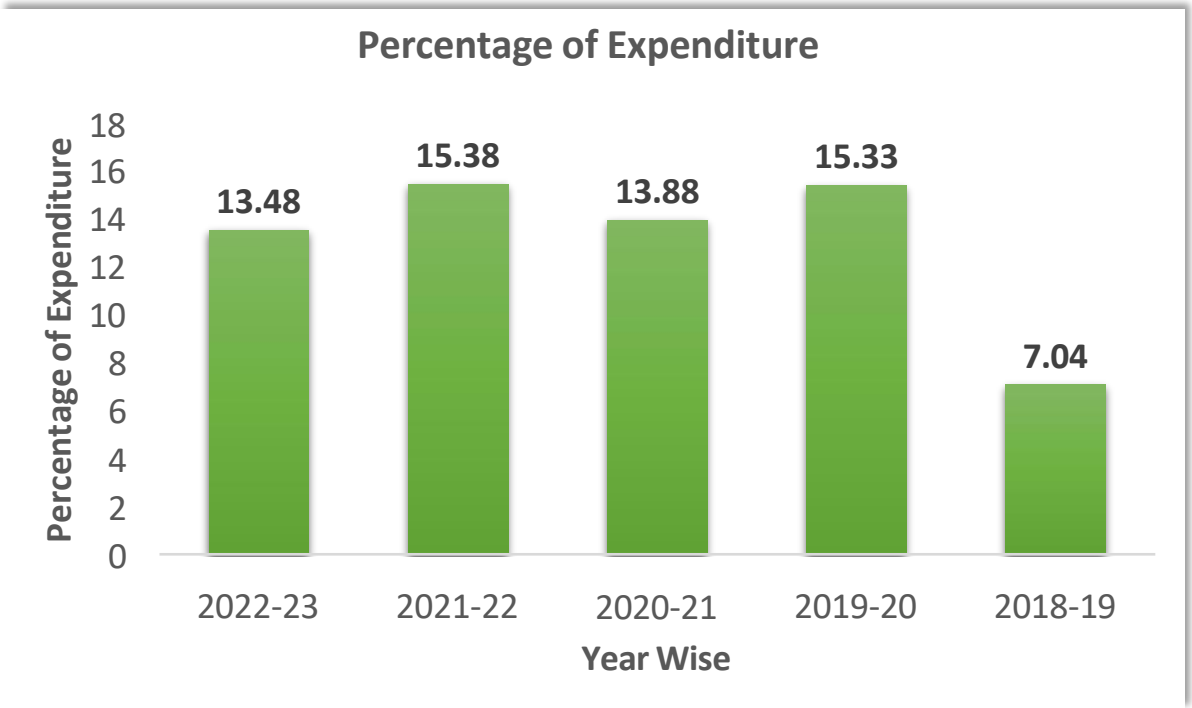

The library at Chinmaya University is optimally used by both students and faculty for academic and research purposes. The user-friendly interface of the ILMS, combined with the availability of diverse e-resources, encourages active engagement with the library's resources. Faculty members frequently utilize the library for preparing lectures, conducting research, and accessing reference materials. Similarly, students rely on the library for completing assignments, exploring research topics, and enhancing their knowledge base. The university organizes library orientation programs and training sessions to familiarize students and faculty with the ILMS and the available resources, ensuring maximum utilization of the facilities.

Impact on Academic Excellence

The automated and resource-rich library at Chinmaya University plays a crucial role in enhancing academic excellence. By providing easy access to vast academic resources and streamlining the management of library operations, the ILMS ensures that students and faculty can focus on their academic and research goals without facing logistical barriers. The availability of updated journals, research papers, and e-books ensures that the university community remains well-informed about the latest developments in their fields. The library's efficient management and accessibility have fostered a culture of academic inquiry and research excellence, contributing significantly to the university's reputation for high academic standards.

4.2.2 Percentage Expenditure for Purchase of Books, E-books, and Subscription to Journals/E-journals (Last Five Years)

Chinmaya University has consistently invested in enhancing its library resources through the purchase of books, e-books, and subscriptions to journals and e-journals over the last five years. The percentage of expenditure allocated for this purpose is illustrated in the chart and table provided below. This data reflects the university's commitment to providing comprehensive learning resources and supporting academic growth among faculty and students.

Year-wise Expenditure Overview

1. **2022-23**: The percentage of expenditure for this year was **13.48%**. This demonstrates a stable investment in library resources, ensuring that students and faculty have access to the latest books and research materials.
2. **2021-22**: The highest expenditure percentage over the five-year period was recorded at **15.38%**. This peak investment underscores the university's strategic focus on strengthening its academic resources.
3. **2020-21**: During this year, the percentage of expenditure was **13.88%**, indicating a consistent allocation of funds to maintain the quality and quantity of learning resources.
4. **2019-20**: The university allocated **15.33%** of its budget toward library resources, highlighting a proactive approach to supporting research and learning infrastructure.

5. **2018-19**: The expenditure for this year was **7.04%**, reflecting a relatively lower allocation compared to subsequent years. However, it laid the foundation for increased investments in the following years.

Year Wise	2022-23	2021-22	2020-21	2019-20	2018-19
Percentage Of Expenditure	**13.48**	**15.38**	**13.88**	**15.33**	**7.04**

Graphical and Tabular Representation

The bar chart and table clearly depict the year-wise percentage of expenditure, showing a steady commitment to enhancing library resources. The consistent increase in budget allocation from 2018-19 to 2021-22 reflects the university's focus on improving academic and research outcomes. The slight decrease in 2022-23 still reflects a strong commitment to maintaining quality resources for the university community.

This data reinforces Chinmaya University's dedication to fostering a robust academic environment by ensuring the availability of essential learning materials and research publications.

4.3.1 IT Infrastructure and Internet Connectivity at Chinmaya University

Introduction

Chinmaya University is committed to providing a technologically advanced learning environment by frequently updating its IT facilities and ensuring that adequate internet bandwidth is available to support the academic and administrative needs of the institution. In the digital age, a strong and reliable IT infrastructure is essential for enhancing learning outcomes, supporting research activities, and facilitating seamless communication. Chinmaya University recognizes this need and continuously invests in upgrading its IT facilities to create a robust technological foundation for both students and faculty members.

Upgradation of IT Facilities

The institution regularly reviews and upgrades its IT infrastructure to keep pace with technological advancements. High-performance computers, updated software, and secure network systems are installed and maintained to ensure smooth academic and research operations. The university provides access to modern computer labs, equipped with the latest hardware and software, to enable students to engage in hands-on learning and research projects. Furthermore, the university ensures that classrooms are fitted with smartboards, projectors, and audio-visual equipment to enhance the quality of teaching and learning.

To further improve efficiency, Chinmaya University has implemented cloud-based platforms for data storage, file sharing, and collaboration. Learning Management Systems (LMS) have been introduced to facilitate online learning and resource sharing. The institution also integrates advanced security measures such as firewalls, antivirus software, and data encryption to protect sensitive information and ensure a safe online environment for its users. Regular training sessions and workshops are conducted to ensure that faculty and students are well-equipped to use the available technology effectively.

High-Speed Internet Connectivity

A reliable and high-speed internet connection is a crucial aspect of the university's IT infrastructure. Chinmaya University provides high-speed internet access with sufficient bandwidth to support academic and research activities. The institution has installed fiber-optic connections to ensure fast and uninterrupted internet service throughout the campus. Wi-Fi connectivity is available in all academic buildings, libraries, hostels, and common areas,

enabling students and faculty to access online resources, research papers, and e-journals conveniently.

To avoid network congestion and downtime, the university's IT department monitors internet usage and network performance regularly. Bandwidth capacity is increased as needed to support the growing demands of online learning, virtual meetings, and research activities. The university also employs network management tools to ensure fair usage and to prevent misuse of internet resources. This ensures that all users have equal access to a stable and fast internet connection.

Impact on Academic and Research Activities

The enhanced IT facilities and internet connectivity have significantly contributed to improving academic performance and research output at Chinmaya University. Students and faculty have easy access to a wide range of e-resources, including online journals, research papers, and digital libraries. The availability of high-speed internet facilitates virtual lectures, webinars, and collaborative research projects with national and international institutions.

Furthermore, the integration of modern technology into the teaching and learning process has made education more interactive and engaging. Online submission of assignments, access to lecture recordings, and participation in virtual discussions have become standard practices. Faculty members can also use digital platforms to evaluate student performance, provide feedback, and track academic progress efficiently.

4.3.2 Student-Computer Ratio at Chinmaya University

Chinmaya University maintains a balanced and well-structured student-computer ratio to ensure that students have sufficient access to technology for academic and research purposes. The student-computer ratio is maintained at **2:1**, indicating that for every two students, there is one computer available for academic use. This ensures that students can effectively engage in research, project work, and other academic activities requiring digital access.

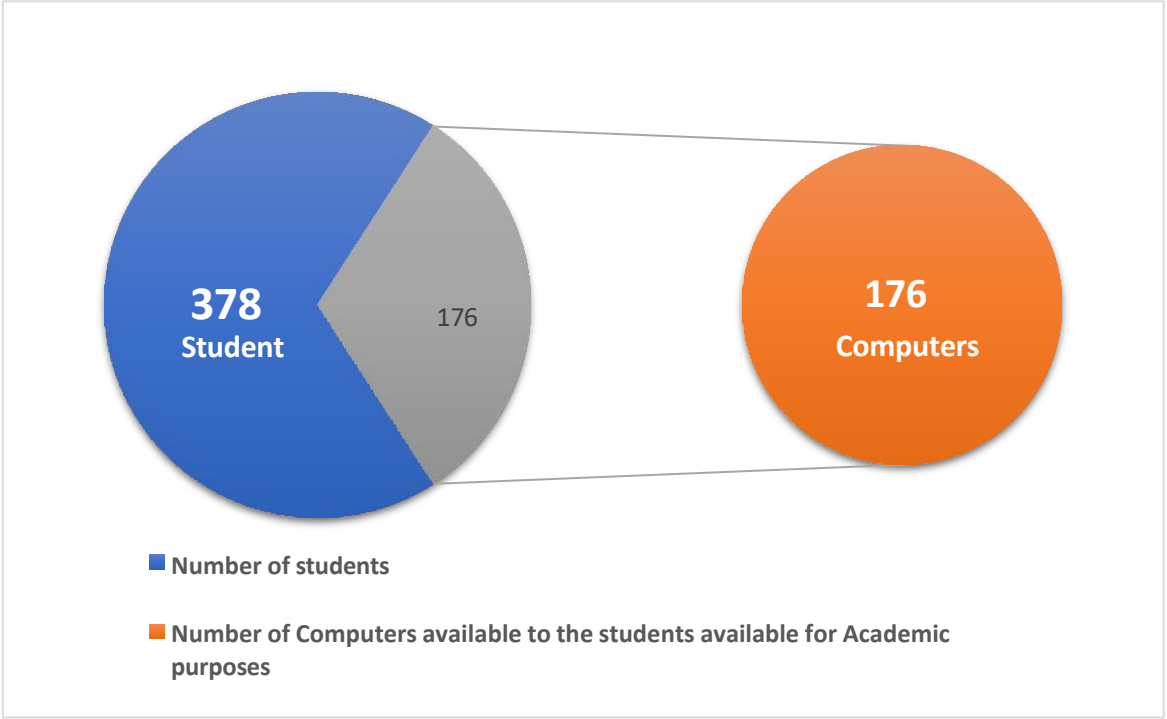

Number of students	**378**
Number of computers available to the students available for academic purposes	**176**

Number of Students and Computers

As represented in the attached chart and table:

- The total number of students enrolled at Chinmaya University is **378**.
- The total number of computers available for academic purposes is **176**.

The university strives to provide adequate technological infrastructure to meet the growing demands of students in a digitally driven academic environment. The availability of computers enhances learning opportunities, facilitates access to online resources, and supports the overall academic development of students.

Ratio and Accessibility

The 2:1 student-computer ratio reflects the institution's commitment to integrating technology into education. It ensures that students have equitable access to computers for academic and research purposes. This ratio is considered optimal for maintaining a balance between student needs and available resources, minimizing the waiting time for computer access and improving the overall learning experience.

The university regularly upgrades its IT infrastructure and ensures that the available computers are equipped with the latest software and internet connectivity to enhance the learning experience. The structured access to computers empowers students to engage in independent research, participate in online learning, and improve their technological proficiency.

4.3.3 Institution has the following Facilities for e-content development and other resource development

Facilities for E-Content and Resource Development at Chinmaya University

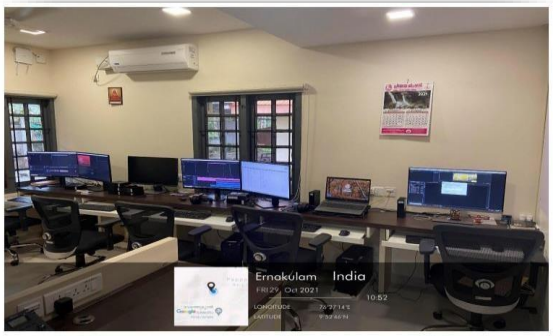

Chinmaya University is equipped with state-of-the-art facilities for e-content development and other resource development to enhance the teaching and learning experience. The institution recognizes the growing importance of digital learning resources and has invested significantly in creating an infrastructure that supports the creation and dissemination of e-content.

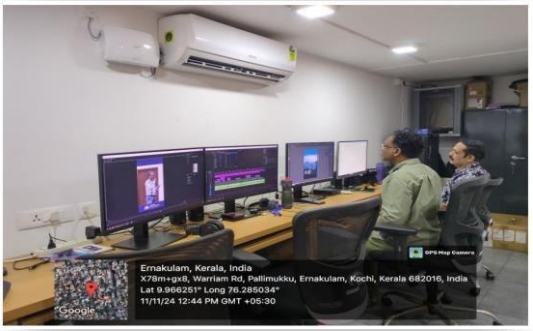

Facilities for E-Content Development

The university provides a comprehensive range of facilities for e-content development, including the following:

1. **Dedicated E-Content Development Studio:**

   The university has established a well-equipped studio with advanced audio-visual recording systems and editing tools. This enables the creation of high-quality educational content, including video lectures, instructional materials, and presentations.

2. **Learning Management System (LMS):**

   A robust LMS platform is available to faculty and students for organizing, accessing, and distributing e-content. This system allows for seamless integration of multimedia resources, assignments, and assessments.

3. **Digital Library:**

   The institution has a fully automated digital library that provides access to a wide range of e-books, journals, research papers, and academic databases. This ensures that both faculty and students have access to the latest knowledge and research materials.

4. **Multimedia Production Facilities:**

   Advanced multimedia production tools are available for creating interactive learning modules, simulations, and other digital learning resources. These facilities enable faculty to design innovative and engaging instructional content.

5. **High-Speed Internet and Wi-Fi Connectivity:**

   The university is equipped with high-speed internet and campus-wide Wi-Fi connectivity, ensuring that students and faculty can access e-content and online resources without interruption.

6. **Technical Support and Training:**

   A dedicated technical support team is available to assist faculty and students with e-content creation and resource development. Regular training sessions are conducted to enhance digital skills and improve the quality of e-learning materials.

Impact on Teaching and Learning

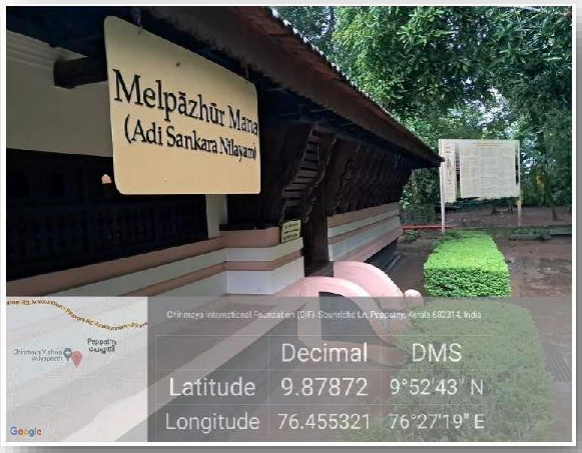

The availability of these facilities has significantly improved the quality of education at Chinmaya University. Faculty members have the flexibility to create and customize content according to the specific needs of their courses. Students benefit from enhanced learning experiences through access to well-structured and engaging digital content. The institution's commitment to developing and expanding its e-content infrastructure reflects its forward-thinking approach to education and its dedication to providing students with a comprehensive and technology-driven learning environment.

4.4.1 Percentage Expenditure on Maintenance of Physical and Academic Support Facilities (Excluding Salary Component)

The percentage expenditure incurred on the maintenance of physical facilities and academic support facilities (excluding salary components) at Chinmaya University over the last five years is illustrated in the chart and table provided. This data reflects the institution's commitment to maintaining infrastructure and enhancing academic support to ensure a conducive learning environment.

Year-wise Breakdown of Percentage Expenditure

The percentage expenditure over the last five years is as follows:

- **2022-23:** The highest percentage expenditure recorded was **516.09**, indicating a significant investment in the maintenance and improvement of physical and academic facilities.
- **2021-22:** The percentage expenditure dropped to **144.36**, showing a decline from the previous year.
- **2020-21:** A further decrease is observed, with the expenditure percentage standing at **106.23**.
- **2019-20:** There was a moderate increase in expenditure, rising to **177.63**.
- **2018-19:** The percentage expenditure was **181.38**, indicating a stable level of investment compared to other years.

Year Wise	2022-23	2021-22	2020-21	2019-20	2018-19
Percentage Of Expenditure	**516.09**	**144.36**	**106.23**	**177.63**	**181.38**

Interpretation and Analysis

The data indicates a fluctuating trend in the expenditure on maintenance of physical and academic support facilities. The sharp increase in 2022-23 suggests a strategic decision to enhance infrastructure and academic resources significantly. The consistent investment over the years demonstrates the university's ongoing efforts to provide a supportive and well-maintained environment for students and faculty.

The graphical representation and tabular data provide a clear and concise overview of the percentage expenditure, reflecting the institution's financial commitment towards improving infrastructure and academic support facilities.

4.4.2 Established Systems and Procedures for Maintaining and Utilizing Physical, Academic, and Support Facilities at Chinmaya University

Introduction

Chinmaya University has implemented well-defined systems and procedures for the effective maintenance and utilization of its physical, academic, and support facilities. These facilities, including laboratories, libraries, sports complexes, computers, and classrooms, are managed through a structured framework to ensure optimal performance and accessibility for students and faculty. The university's proactive approach to infrastructure management reflects its commitment to providing a high-quality learning environment.

Maintenance of Physical Facilities

The physical infrastructure of the university, including buildings, classrooms, and laboratories, is maintained through a systematic process managed by the maintenance department. Regular inspections and maintenance schedules are followed to address any structural issues, ensuring that facilities are safe and fully functional. The university employs professional staff to oversee repairs and maintenance work, ensuring that any damage or wear and tear is promptly addressed. Preventive maintenance is also a key focus, with periodic checks conducted to avoid any disruption in the learning process. Classrooms are equipped with modern teaching aids and comfortable seating arrangements, which are regularly inspected and upgraded based on feedback from faculty and students.

Utilization and Maintenance of Laboratories

The university's laboratories are equipped with state-of-the-art equipment to facilitate hands-on learning and research activities. A dedicated team of lab technicians is responsible for the upkeep and calibration of laboratory equipment. Standard operating procedures (SOPs) are in place to guide students and faculty in the proper handling and usage of equipment. The inventory of laboratory resources is regularly updated, and any damaged or outdated equipment is promptly replaced or repaired. Training sessions are also conducted to ensure that students are well-versed in using the equipment safely and effectively.

Library Management and Utilization

Chinmaya University's library is a central resource for academic and research activities. The library is automated with a digital Integrated Library Management System (ILMS), which enables students and faculty to access a wide range of resources, including books, e-books, journals, and research papers. The ILMS also helps in tracking the usage of resources and streamlining the borrowing and return processes. Regular audits are conducted to ensure that library materials are in good condition, and damaged or outdated materials are replaced periodically. The university also subscribes to various online databases and academic journals, ensuring that the latest research materials are available for the academic community.

Sports Complex and Recreational Facilities

The university's sports complex and recreational facilities are maintained to promote physical well-being among students. A dedicated sports coordinator is responsible for organizing and maintaining the sports infrastructure, which includes indoor and outdoor courts, gymnasiums, and training areas. Regular maintenance schedules are followed to ensure that sports equipment and facilities remain in top condition. Coaching sessions and tournaments are organized to encourage student participation and enhance their athletic skills.

Computer and IT Facilities

Chinmaya University has a well-established IT infrastructure to support academic and administrative functions. Computer labs are equipped with high-speed internet connectivity and updated software to facilitate learning and research. A dedicated IT support team is responsible for maintaining and upgrading the systems, ensuring that any technical issues are resolved promptly. The university also implements cybersecurity measures to protect sensitive data and ensure the integrity of the IT network. Training sessions are conducted to familiarize students and faculty with the latest software and digital tools.
